

CLAIM AMENDMENTS

Please cancel claims 9, 18, 20, and 29.

Please amend claims 1, 11-13, 16-17, 19, 21, 25, 27-28, and 30-35 as follows:

1. (Currently Amended) A method for receiving venue-based data at a hand held device, said method comprising the steps of:

wirelessly receiving data at a hand held device said data including video streaming simultaneously from more than one visual perspective within an entertainment venue and transmitted from at least one venue-based data source of at the entertainment venue;

processing said data for display on a display screen associated with said hand held device; and

displaying ~~processed~~said data on said display screen, ~~thereby enabling a user of said hand held device to view said venue based data through said hand held device.~~

2. (Original) The method of claim 1 wherein said at least one venue-based data source comprises at least one video camera.

3. (Original) The method of claim 2 wherein said at least one video camera is adapted to provide high-resolution wide-angle video data.

4. (Original) The method of claim 1 wherein the step of receiving at a hand held device data transmitted from at least one venue-based data source, further comprises the step of:

receiving through at least one wireless receiver at said hand held device, data transmitted from said at least one venue-based data source.

5. (Original) The method of claim 4 further comprising the step of:

broadcasting said data to said hand held device through wireless communications.

6. (Original) The method of claim 1 further comprising the step of:

transmitting said data from said at least one venue-based data source to said hand held device through a wireless network.

7. (Original) The method of claim 3 further comprising the step of:

transferring said data through a wireless gateway associated with said wireless network.

8. (Original) The method of claim 1 wherein the step of displaying processed data on said display screen, further comprises the step of:

displaying processed data on said display screen, in response to user input through a user interface associated with said hand held device.

9. (Cancelled).

10. (Currently amended) The method of claim 9~~1~~ wherein the step of displaying processed data on said display screen, further comprises the step of:

displaying a particular perspective of said venue-based activity on said display screen, in response to a user selection of said particular perspective of said venue activity from more than one video perspective displayed on said display.

11. (Currently amended) The method of claim 1 further comprising the step of:

processing said data for display on said display screen ~~associated with said hand held device~~ utilizing at least one image-processing module.

12. (Currently Amended) The method of claim 1 wherein said data includes venue-based data comprising real-time video data of the more than one video stream from more than one video camera located within the venue.

13. (Currently Amended) The method of claim 1 wherein said data includes ~~venue-based data comprising~~ instant replay video data from the more than one video perspective.

14. (Previously Amended) The method of claim 1 wherein said data further comprises promotional information.

15. (Previously Amended) The method of claim 1 wherein said data further comprises advertising information.

16. (Currently amended) A method for wirelessly receiving venue-based data at a hand held device, said method comprising the steps of:

wirelessly receiving at a hand held device data including at more than one video perspective streaming simultaneously from more than one video camera located within an entertainment venue, said data~~transmitted from at least one venue-based data source;~~

processing said data for display on a display screen associated with said hand held device; and

displaying ~~processed~~the data on said display screen,~~thereby enabling a user of said hand held device to view venue-based data through said hand held device.~~

17. (Currently Amended) A method for receiving at least one perspective of a venue-based activity at a hand held device, said method comprising the steps of:

simultaneously receiving at a hand held device ~~at least~~more than one video perspective of a venue-based activity transmitted from at least one venue-based data source ~~of at an entertainment venue;~~

processing said ~~at least~~more than one perspective for simultaneous display on a touch-sensitive display screen associated with said hand held device;~~and~~

displaying said ~~at least~~more than one perspective on said display screen, thereby enabling a user of said hand held device to simultaneously view more than one venue-based perspectives through said hand held device;~~and~~

displaying a particular perspective on said display screen in response to a user's selection of said particular perspective from among said plurality of perspectives by touching the touch-sensitive display screen where it overlays the particular perspective.

18. (Cancelled)

19. (Currently Amended) A ~~system~~hand held device adapted for simultaneously receiving venue-based data at a hand held device, said more than one video perspective captured by more than one video camera located within an entertainment venue, system comprising:

at least one receiver adapted for simultaneously receiving the more than one video perspective at a hand held device data transmitted from at least one venue-based data source of a venue;

a processor adapted for processing said data more than one video perspective for simultaneous display of at least two video perspectives on a display screen associated with said hand held device; and

a display screen adapted for displaying processed data, thereby enabling a user of said hand held device to view venue-based data through said hand held device the at least two video perspectives.

20. (Cancelled).

21. (Currently amended) The system of claim 20 19 wherein ~~said~~ at least one of said more than one video camera is adapted to provide high-resolution wide-angle video data.

22. (Currently amended) The system of claim 19 wherein ~~said~~ at least one of said more than one video camera comprises a wireless video camera.

23. (Currently amended) The system of claim 19 further comprising:

at least one transmitter adapted for broadcasting said data from said at least one venue-based data source to at least one hand held device.

24. (Currently amended) The system of claim 23 further comprising:

a wireless gateway adapted for transferring said data through a wireless network.

25. (Currently amended) The system of claim 19 wherein ~~said processed data~~video is displayable on said display screen, in response to user input through a user interface associated with said hand held device.

26. (Cancelled).

27. (Currently amended) The system of claim ~~26~~19 further comprising:

a display routine adapted for displaying a particular perspective of said venue-based activity on said display screen, in response to a user selection of said particular perspective of said venue activity.

28. (Currently amended) The system of claim 19 further comprising:

a processor adapted for processing said ~~data~~at least two video perspectives for simultaneous display on said display screen associated with said hand held device utilizing at least one image-processing module.

29. (Cancelled).

30. (Currently Amended) The system of claim 19 wherein said ~~data~~ at least two video perspective includes ~~venue-based data comprising~~ at least one instant replay video ~~data~~.

31. (Currently Amended) The system of claim 19 wherein said ~~data~~ hand held device is further ~~comprises~~ adapted to receive promotional information.

32. (Previously Amended) The system of claim 19 wherein said ~~data~~ hand held device is further ~~comprises~~ adapted to receive advertising information.

33. (Currently Amended) A system for wirelessly receiving venue-based data including at more than one video stream from more than one visual perspective within an entertainment venue at a hand held device, said system comprising:

a receiver adapted for wirelessly receiving data at a wireless hand held device ~~data~~ including more than one video stream from more than one visual perspective transmitted from ~~at least~~ more than one venue-based data source ~~of at the~~ entertainment venue;

a processor adapted to process ~~for processing~~ said venue-based data for display at said hand held device; and

a display screen adapted for simultaneously displaying the venue-based data processed by the processor ~~data~~, wherein said display screen is associated with said hand held device, thereby enabling a user of said hand held device to view ~~venue-based data through a wireless hand held device~~ the more than one video stream.

34. (Currently Amended) A system for receiving ~~at least~~more than one video perspective of a venue-based activity at a hand held device, said system comprising:a hand held device including:

at least one receiver for simultaneously receiving ~~at a hand held device at least~~more than one video perspective of a venue-based activity simultaneously transmitted from ~~at least~~more than one venue-based video data source ~~of a venue;~~
and

a processor adapted to process~~for processing~~ said ~~at least~~more than one video perspective for display on a display screen associated with said hand held device;and

~~display screen for displaying said at least one perspective, thereby enabling a user of said hand held device to view multiple and enhanced perspectives of said venue-based activity through said hand held device.~~

35. (Currently Amended) A system for displaying a particular video perspective of a venue-based activity at a hand held device, said method comprising:

at least one receiver ~~for~~ simultaneously receiving at a hand held device a plurality of video perspectives of a venue-based activity simultaneously transmitted from ~~at least~~ more than one venue-based data source ~~of~~ allocated at an entertainment venue;

a processor ~~for~~ processing said plurality of perspectives for display on a display screen associated with said hand held device; and

a display screen ~~for~~ displaying a particular video perspective on said display screen; in response to a user selection of said particular video perspective from among said plurality of video perspectives, ~~thereby enabling a user of said hand held device to view particular venue-based data through said hand held device.~~

Please add the following New Claims:

36. (New) The method of claim 1 wherein said entertainment venue includes at least one of a: football stadium, baseball stadium, soccer stadium, boxing arena, wrestling arena, car racing stadium, horse racing stadium, golf course, concert hall.

37. (New) The method of claim 16 wherein said entertainment venue includes at least one of a: football stadium, baseball stadium, soccer stadium, boxing arena, wrestling arena, car racing stadium, horse racing stadium, golf course, concert hall.

38. (New) The method of claim 17 wherein said venue includes at least one of a: football stadium, baseball stadium, soccer stadium, boxing arena, wrestling arena, car racing stadium, horse racing stadium, golf course, concert hall.

39. (New) The system of claim 19 wherein said entertainment venue includes at least one of a: football stadium, baseball stadium, soccer stadium, boxing arena, wrestling arena, car racing stadium, horse racing stadium, golf course, concert hall.

40. (New) The system of claim 35 wherein said entertainment venue includes at least one of a: football stadium, baseball stadium, soccer stadium, boxing arena, wrestling arena, car racing stadium, horse racing stadium, golf course, concert hall.
